

Project with purpose.

Sprint LivePro™ provides executives and employees a quick and easy way to project pricing and product information during important sales meetings with clients and vendors.

What is it?

The Sprint LivePro is a multi-purpose device that combines a standard mobile hotspot device with a portable mini projector. This device also includes an Android™ user-interface and a battery source for a portable charging solution for secondary devices.

How does it work?

Why use it?

Simplicity

- Utilize space when on the road with this compact, easy to transport projector and mobile hotspot
- Access the cloud for your presentations, product lists and more on Sprint 4G LTE

Efficiency

- Increase productivity by keeping work moving at all times
- Save time looking for projector solution when in a new conference room or client space

Functionality

- Project up to 10' HD images using DLP technology so that your customers can see everything you're sharing
- Connect wirelessly to additional mobile devices and project quickly when visiting a client's office
